Global Service Provider Partners With ThreatDefence to Deliver SecOps Services to Their Customer Base

DataProtech Group operates from the UK, Morocco, UAE, USA and France commanding global presence across 4 continents. DataProtech provides services to some of the largest financial, pharmaceutical and government organizations around the world. DataProtech provides a number of successful cybersecurity programs to their customers, delivering security awareness, threat intelligence, ongoing security operations and cybersecurity management services.

DataProtech established numerous technology partnerships and developed an extensive portfolio of cyber security services; however, they have been looking for innovative solutions and technologies in cyber security operations domain. In ThreatDefence, DataProtech found a new partner, taking onboard ThreatDefence's security operations capability, deep visibility, digital forensics, zero-day detection, network detection and response and other technologies.

Mark Mottershead, Chief Operating Officer at DataProtech, said: *"Although we already had support from many major vendors through our strategic partnerships, we saw ThreatDefence as an authentic and agile organization delivering on their values. We had direct access to excellent cyber security experts who were willing to invest their time and energy to work with us to build something special and custom, and collaborated with our team to support our initiatives."*

Case Study

threatdefence_

DataProtech were able to leverage ThreatDefence SecOps platform to build a unique and authentic service, supported by DataProtech Group's global 24x7 Security Operations Centre. *"We have been looking for a while and have tried many products and approaches, however none of them could provide us with the visibility and coverage that we've got from ThreatDefence"*, said Mark.

With ThreatDefence's SecOps platform, DataProtech achieved a significant increase in Security Operations efficiency. By streamlining alert triage, detection, threat hunting, investigations and incident response, DataProtech can manage millions of events and hundreds of detections within seconds. The integrated workflows have enabled analysts to prioritize their time effectively, enabling them to focus on hunting hidden threats and detecting anomalies that may have otherwise gone unnoticed by other security tools.

"

ThreatDefence equipped our team with a comprehensive toolset to deliver scalable Security Operations services to our global customers, and also provided with the first-class threat intelligence, threat detection and digital forensics technology.

ThreatDefence's SecOps platform combines numerous capabilities which are conveniently packaged and presented as an end-to-end, integrated experience. It provides not only real-time visibility and threat detection, but greatly assists in revealing, weaknesses, misconfigurations and vulnerabilities, making it a platform of choice for proactive manage cyber risk for our customers."

Mark Mottershead, COO
DataProtech Group

"Our goal is to make cyber security simple and affordable for businesses of any size", said Mark. *"With ThreatDefence, we have a reliable and agile partner who can innovate with us and is willing to work together to make difference."*
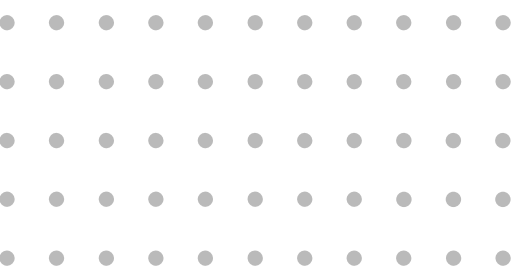

ABOUT THREATDEFENCE

ThreatDefence provides innovative Security Operations and cyber defense solutions to MSPs and Enterprises. Our SecOps Platform is designed to assist businesses of all sizes in implementing world-class detection and response, utilizing all available data sources, whether it be within their network, on the Dark Web, or concealed deep within their supply chain. We value open ecosystems and seamlessly integrate with any and all threat intelligence feeds and log sources, delivering immediate actionable security insights.
