ThreatDefence Helps Deans Court Chambers to Reduce Their Cyber Risk and Stay Protected

Deans Court Chambers were founded in Manchester more than 100 years ago and, since that time, have consistently maintained a reputation for the highest standards of service throughout the North West and nationally.

In the increasingly competitive market for legal services, Deans Court Chambers stands out as one of the leading barristers' chambers in the UK and are regularly ranked by all major legal directories as one of the Top Sets on the Northern Circuit.

Deans Court Chambers are a modern, innovative and forward-looking set, comprising more than 100 barristers, 11 of whom are Queen's Counsel. Deans Court Chambers maintains an unmatched reputation for professionalism and approachability, which is underpinned throughout by a rigorous quality policy and assisted by the latest in technology.

When it comes to data security, Deans Court Chambers does not have any room for error. Deans Court Chambers representatives routinely deal with a large amount of data, including personal identifiable information and other sensitive and confidential information, that, in the wrong hands, can seriously harm many individuals and organizations.

Case Study

threatdefence_

For Deans Court Chambers, it was essential to find a managed solution that would help the organization reveal vulnerabilities and immediately alert the internal IT team in case of any indicators of compromise.

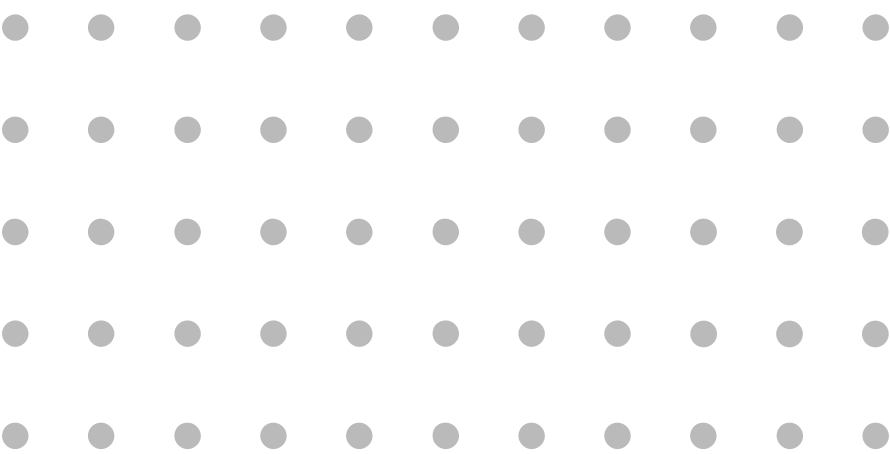

ThreatDefence checked all the boxes for Deans Court Chambers, providing real-time visibility, risk monitoring and reporting on all suspicious security events in the environment.

ThreatDefence SecOps platform was an easy choice for us. It provided us with multiple layers of visibility and threat intelligence, essentially giving us the peace of mind to know that our systems are secure. It allowed us to focus on our daily functions without having to worry about cyber security threats."

Steven McCormick, Information Security Manager
Deans Court Chambers

"We have a small team with a lot of duties and responsibilities." said Steven McCormick, Information Security Manager at Deans Court Chambers. *"ThreatDefence really took time to understand our challenges and constraints and focused on what was really important for us. We know that if we get an escalation from ThreatDefence we need to react, so we can focus on responding to threats rather than continuously verifying false positives."*

ABOUT THREATDEFENCE

ThreatDefence provides innovative Security Operations and cyber defense solutions to MSPs and Enterprises. Our SecOps Platform is designed to assist businesses of all sizes in implementing world-class detection and response, utilizing all available data sources, whether it be within their network, on the Dark Web, or concealed deep within their supply chain. We value open ecosystems and seamlessly integrate with any and all threat intelligence feeds and log sources, delivering immediate actionable security insights.
